Our strong sister Merle Africa, who died in prison under suspicious circumstances.

We cannot continue to allow this government to steal our families from us! It is time to **FIGHT** and **DEMAND** the release of all political prisoners!!!

If we can bring home all the political prisoners who are **ELIGIBLE** for parole, and being illegally denied their release, we will have thickened our ranks to then continue pushing for the release of all those political prisoners **NOT** eligible for parole!

Parole is **NOT** a given. As with everything else, the government uses parole as a tool of control. For solely political reasons, they are holding our community hostage. The following political prisoners are all being denied parole due to pressure from the FOP and **NOT** due to legality.

Robert Seth Hayes
Veronza Bowers
Sekou Kambui
Jalil Muntaqim
Herman Bell
Hugo Pinell
Sundiata Acoli
and many others!

It is our responsibility to tell the parole board they cannot act as Judge and jury and retry and resentence people. It is their responsibility to release our family back to the community. Now is the time for a unified movement specifically targeting this issue. Strategically, it will benefit us as a whole to have these people with us on the streets as we continue battling for justice!
